ACTIVE

This rare pristine seaside waterfront farm provides a front row seat to the Barrier Islands. The water frontage along the creek and bay extends for over a mile. This land has farmland and unspoiled woods. Across the creek is a conservation easement, so you will never be looking at development. A public boat launch is just down the street. Note: The house on 2 acres is not part of this parcel. Owner may consider selling a reasonable portion of the full acreage. Conveyance will be with deed restrictions that shall prevent development.
