South Boston Speedway – SoBo to its many fans – was a quarter-mile dirt track when it opened its gates in 1957, and in that dusty incarnation hosted NASCAR stock car racing as well as a host of other stock and modified classes. -Paved in 1962, SoBo grew then to .357 miles before a final growth spurt brought in 1994 the track to its current configuration of 4/10 miles with 12 degrees of banking in the turns and 10 degrees on its 360-yard straightaways. The 45-foot width helps passing and keeps the racing close. -The race schedule is set for 2020, check the website for times and dates. -(<https://www.iracing.com/tracks/south-boston-speedway/>)
