

2165 WATER SONG RUN, SUMTER, SUMTER

SOLD

This lot had water behind it until 2007 when the dam broke. The city took several years to repair and vegetation is now overgrown. This space on the back side of the property is still the home to beautiful birds, deer and other wildlife. It would be a great spot to enjoy your morning coffee and take in the wonders of nature. It is possible to clear vegetation and return it to a water front lot.
