

3819 WINDY POINT ROAD, SUPPLY, BRUNSWICK

ACTIVE

What an opportunity to create a legacy! Windy Point - as it has been known for almost 100 years - is where the Intracoastal Waterway flows through marshlands and navigable tidal creeks, intersecting the Shallotte River. These marshlands surround and accentuate 2.95 acres of bulk-headed, mainland uplands fronting the Intracoastal Waterway. The uplands tract can be subdivided or imagine creating one or two large estates with a private dock and boat lifts. Seller intends to remove existing structures. This mainland acreage is located at the dead end of secluded peninsula covered in sprawling, centuries-old, live oaks surrounded by the waterway and marshlands with no through traffic and 180-degree, unobstructed, mile-wide views of the Intracoastal Waterway, Holden Beach, and the Shallotte River. Imagine all the possibilities! The seller is open to subdividing. Windy Point is convenient to Holden Beach and the array of renowned golfing opportunities scattered through Brunswick County. Are you ready to make your dreams happen?
