King and Queen County was established in 1691 from New Kent County, and was named for King William III and Queen Mary II of England.[3] King and Queen County is notable as one of the few counties in the United States to have recorded a larger population in the 1790 census than in the 2010 one.

Among the earliest settlers of King and Queen County was Roger Shackelford, an English emigrant from Old Alresford, Hampshire, after whom the county's village of Shackelfords is named. Shackelford's descendants continued to live in the county, and by the nineteenth century had intermarried with several local families, including Taliaferro, Beverley, Thornton, and Sears.
