SOLD

Live the good life in the serene, coastal community of Seawatch. This upscale development is all about nature and the land—abundant with native plants, animals, majestic oaks, marsh savannas and the protected salt marsh that meanders through. This lot is in the established neighborhood of Victoria. The 1800sq' LowCounty design is prevalent as can be seen the photo of the neighboring home. There are recessed, covered porches, charming ornamentation, and interior open spaces with lots of light. This property is surrounded by biking and hiking trails that lead you to the canoe/kayak launch on Mercer Mill Creek where you can relax at the community clubhouse. Seawatch is just minutes to the beaches of Oak Island or Holden Beach and less than an hour from Myrtle Beach and Wilmington.
