When colonists arrived from England in 1607, some traveled along the Nottoway River, but when they established the first counties, James City County included both sides of the James River all the way to the North Carolina line. The south side of the James River became Surry County in 1652. Virginia's General Assembly formed Sussex County from the southwestern end of Surry County in 1754. Sussex County has maintained a predominantly agricultural economy, as well as its historic heritage for over four centuries.
