

12178 SAM SNEAD HIGHWAY, WARM SPRINGS, BATH

SOLD

Welcome to Warm Springs Village! Dunhams Motor Lodge was built in 1948 by Orvis Dunham as an Inn for travelers to Bath County and the springs. The Warm Springs pools are just up the road! The unique fireplace in the lodge was built out of Stromatolites which actually are fossilized blue-green algae on limestone deposits. These fossils represent one of the oldest life forms on the planet. The Fireplace mantle is packed with an amazing rock and mineral collection including crystals, fossils, geodes, conceptions and Indian artifacts. It is believed that the collection belonged to Orvis Dunham. Once home to Seven Oaks Gallery the possibilities are endless. This gem could be used as a single family residence, art gallery, office space or apartment house.
